Adult Social Care and Health – Find out “What’s Housing Got to Do With It?”

The ADASS Housing Policy Network met with Directors of Adult Social Care to ask how the network could support them in their role. We know that housing solutions are often at the heart of successful independent living, and we are offering a half day event to explore the best ways of engaging with the Housing Sector and the most important areas to engage on?

The Eastern Region is the first region in which the event is being run and it is intended to offer the event to other regions on a rolling programme.

There are up to 50 places for this session, we would like to offer 2-3 places for local authorities and 2 places for housing representatives so please reserve your places as soon as possible, preferably by the 11th April by contacting Natasha.Burberry@adasseast.org.uk.
