

**QUALITY
OF LIFE**
FOUNDATION

[Let's build quality of life together]

We want a housing system that
prioritises people's quality of life
over the long-term.

What is
quality of
life?

Our mission is to make people's quality of life central to the way we create and care for our homes and neighbourhoods

1) We undertake and share research to build the evidence base

2) We support the implementation of best practice approaches

1. Research projects

2. Commercial services

3. Influencing

This leads to better outcomes for society, industry, local government and national government

Residents and communities have a greater sense of control over what they value and need

Industry and government change the way they approach housing, leading to more sustainable homes and neighbourhoods

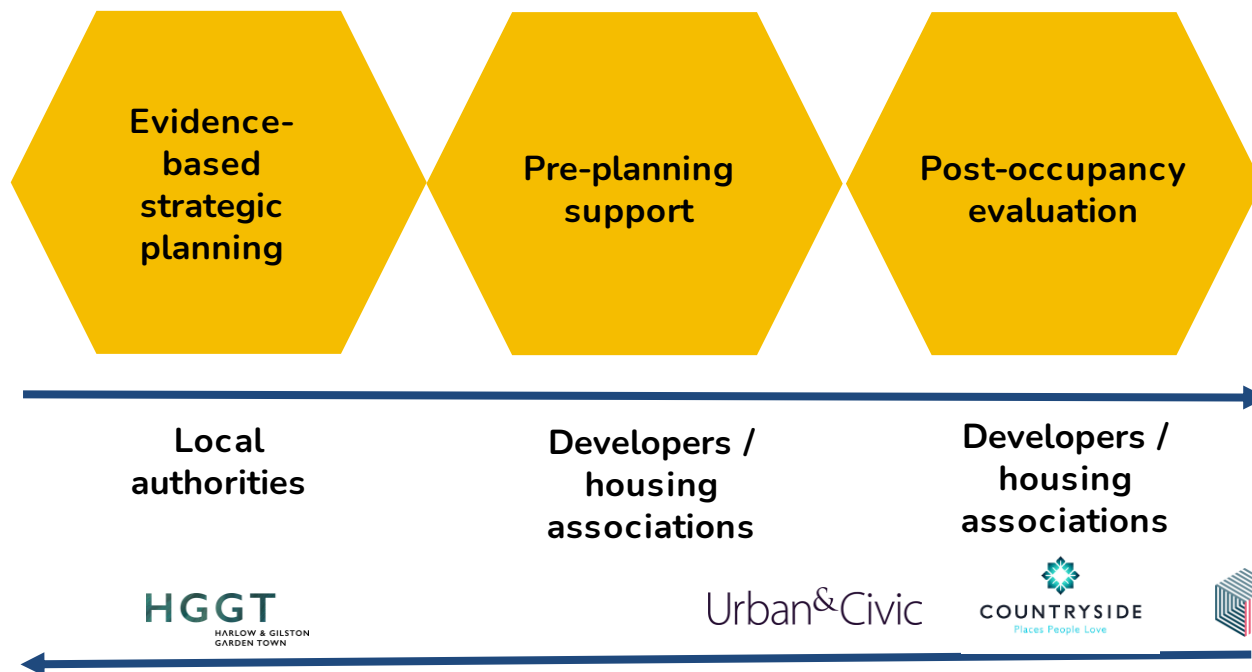

Research

We work with residents and community groups, developers, housing associations, universities, local and national government.

Research includes literature reviews, qualitative and quantitative studies, policy reviews and roundtable reports.

What about
older
people?

What about older people?

- Give older people a greater sense of influence in their lives.
