

Creating a Better Pathway to Recovery

PROCare
Wet Room & Bathroom Specialists

PROCare
2001

Directors Brian Lee
and Anthony Turton
created PROCare

The Aim

To design a range of products that are
easy to install, easy to maintain and
easy to use

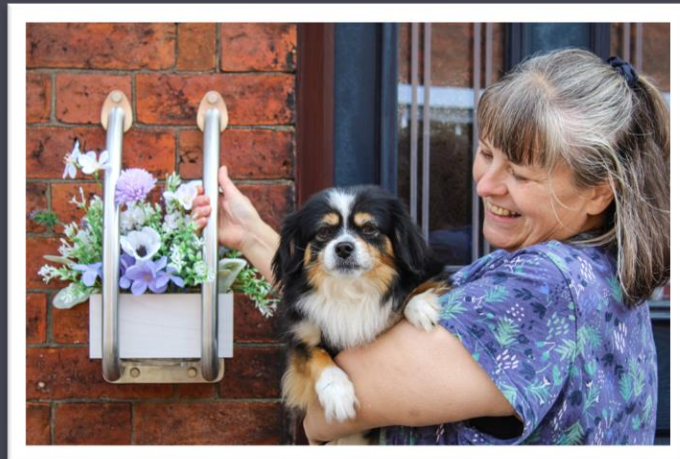

2023

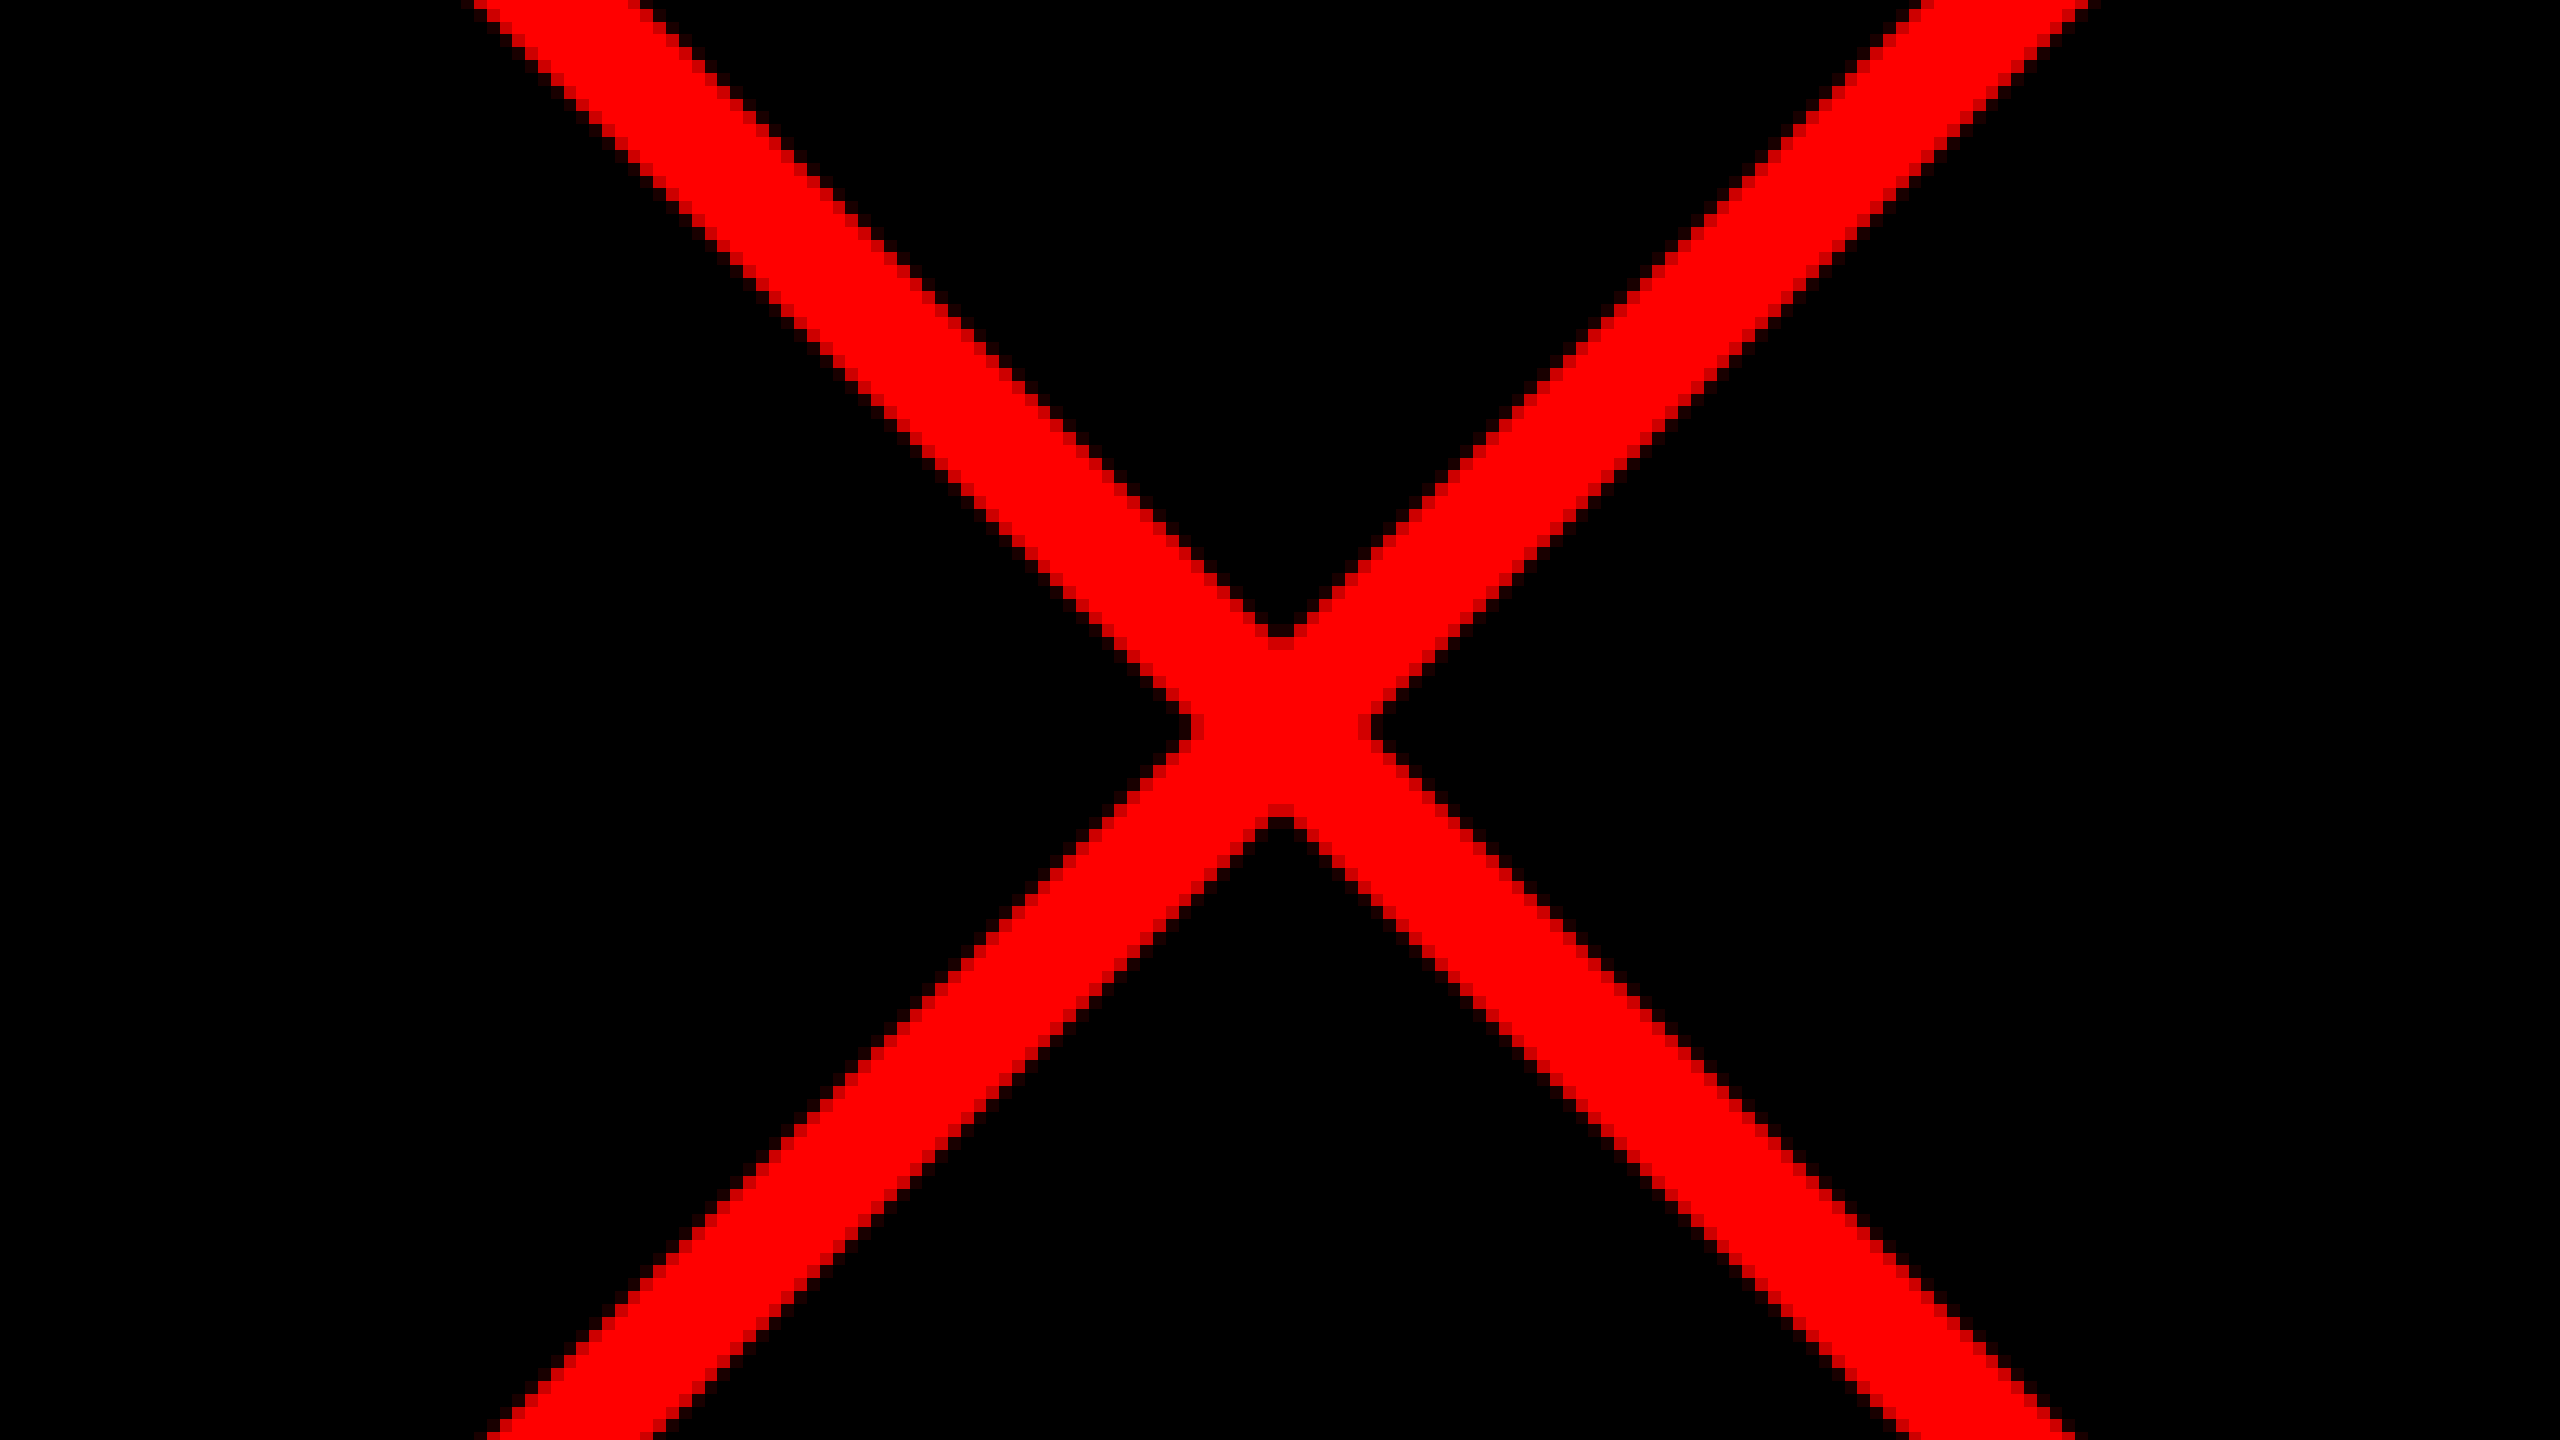

Two decades later, this philosophy
remains and the business continues to
develop a whole range of innovative
products and services.

From humble beginnings to market leaders...

Our commitment, dedication and passion
to design innovative products, support
people and improve places, had led to
PROCare becoming firmly established as
one of the market leaders for supplying
bathrooms and wet rooms nationwide.

What we do today, improves all your tomorrows

Making it mainstream

Together, we design better so people can live happier, healthier and longer in their homes!

Our aim is to be a total solution provider, giving more choice, unrivalled service, innovative products, future-focused design and completely people-centred approach.

Every home adaptation is an opportunity to make a difference

Well-planned, discreet and attractive aids and adaptations will encourage people to seek help sooner, allow them to live safely and comfortably in their homes for longer and save costs on health and social care.

Thank You For Listening
