

Breathing new life into a neighbourhood: how a community organisation helped revive a forgotten space

Nick Sinclair – Community Catalysts Programme Director

Andy Cooke – Local Social Director

A bit about us...

- A social enterprise established in 2010
- A catalyst— building on the strengths of people and communities
- Help local people set up small community enterprises that offer care and support to other local people – over 2,000 now on [Small Good Stuff](#)
- Local Area Coordination development
- Opportunities for people to thrive in healthy, caring communities.

Designing with the local community – what we know

- Every neighbourhood has people with skills, talents, gifts, ideas
- We don't always see the good stuff – it can get hidden by labels, assumptions, power dynamics
- Together is better
