How does this work?

My home that works for me

I'm (actively)
in control

Insight that
helps you
help me

My Space

It (passively)
responds to
me

I manage my
support

Designing-in *Freedom*

Commissioning support that is “Just Right”

DIMENSIONS CASE STUDY

The model

Young People

At risk of out-of-area placements

At risk of institutional placements

Transitional support (2-5 years)

Upskilling for more independent living

Your space, your support, your way

Just
Roaming 

The formula to success =

The right housing + data-driven support + autonomy enabled by TEC

Better insight, better outcomes

- Informed better support planning
- ↑ Improved safety
- ↑ Improved sleep patterns
- ↑ Increased community inclusion
- ↑ Improved privacy and dignity
- ↑ Improved quality of life
- ↑ Increased independence skills
- ↑ Increased self confidence
- ↓ Reduction in behaviours of distress (>50%)
- ↓ Reduction in damage to property
- ↓ Restrictive practices reduced
- ↓ Reduction in psychotropic and PRN medication
- ↓ Reduction in direct support needs

Maintaining agency at home

Can I move
around freely?

Can I have
space when I
want it?

Can I operate
my
appliances?

Are things
where I want
them?

Is it too
noisy?

Is the
temperature
right for me?

Is the
lighting
right?

Am I in control
of when and
how staff
support me?

Any Questions?
