The Challenge – the changing landscape

Emerging pressures driving the need for innovative housing and support solutions

Developing Our Vision

Creating Dementia-Inclusive Housing, Not Dementia Buildings

Turning Vision into a Reality

Designing Places Where People Can Age Well

Independent Living

- Accessible, adaptable homes.
- Technology that supports independence.
- Choice, control and person-centred support.

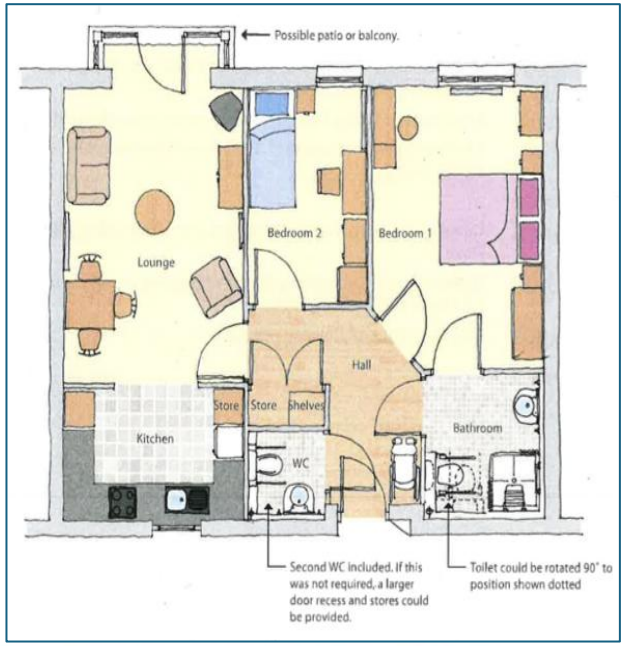

Community

- Reduce loneliness and isolation.
- Shared spaces and social opportunities.
- Strong local support and connections.

Health & Wellbeing

- Dementia-friendly, healthy environments.
- Integrated health and care partnerships.
- Activities that promote wellbeing.

Housing Readiness In Action

12 new developments

Circa 620 older person apartments

Cardiff's first 'Wellbeing Village'

Cardiff's first multi-generational

Potential for 4 Housing & health Hubs

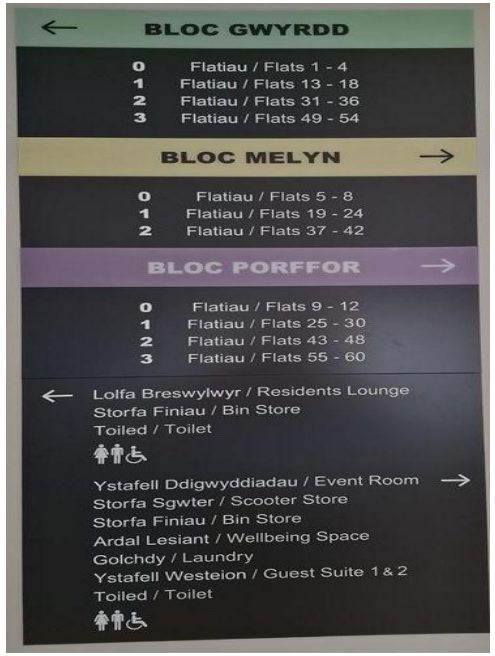

4 new schemes delivered to date

Creating Connected Communities

Michaelston Wellbeing Village

Beyond Buildings

What have we learnt?

The Model is Evolving

Good Housing delays crisis

Design Matters

Community Connections

Early Intervention is Important

We shouldn't wait for a dementia diagnosis before thinking about dementia-friendly housing.
