

AMAR BARI AMAR JIBON NEWSLETTER

APRIL 2023

BOROUGH BRIEFS

The OU team have each taken a borough and have written up briefs, which include information on background of each borough, Local Planning and Housing, Adult Health and Social Care and Aging Well Strategy. This has been helpful to garner an insight into each borough and is helping the team be informed as they interview professionals from each of these boroughs.

SHORTLISTING FOR COMMUNITY CO-RESEARCHER INTERVIEWS

The interview panel, Mr Uddin, Mr Gani, Mrs Begum, Dr Holland, Prof. Peace and Dr Ruby have had the exciting but challenging task of shortlisting 12 candidates for interview from a pool of 45 applications! The interest for this role from the community has been impressive and reassuring for the Amar Bari Amar Jibon project team to know that it has garnered such positive interest in a short period of time. The team are now excited to meet the candidates over the two days of interviewing on 2nd and 3rd April.

SEEKING BANGLADESHI LONDONERS FOR RESEARCH FOCUS GROUP!

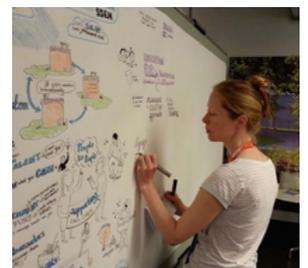

Yasmin Rahman is a Peer Researcher at The Young Foundation researching racial wealth disparities in London with researchers from the London School of Economics. She is looking to recruit Bangladeshi Londoners to take part in a paid online focus group during which she will ask questions about their understanding and experience of the racial wealth divide. The views and experiences of Bangladeshi Londoners will help shed more light on the racial wealth divide. It will be a 90 minute focus group and participation is confidential. Each participant will be given a £40 incentive for taking part.

If interested Yasmin can be contacted via her email: yasminrahman94@gmail.com

LIVE ILLUSTRATOR

The OU team are excited to have Sandra Howgate on board the project. She has been working as a live graphic artist, recording live events with hand drawn words and images. She will be attending the next two BRAG meetings to capture the discussions to illustrate the co-produced nature of the Amar Bari Amar Jibon project. If you would like to know more about Sandra's work please visit her website.
