Transitional Banding Information

	B	C	D	E	F	G
1	Address	Dates in transitional band	Reason for the banding Change	Number of additional hours	Outcome after support i.e. did the Client return to their original banding etc.	
2	Anywhere	02/08/10 - 13/09/10	Health Scare, suspected Breast Cancer, wanted to have extra visits for emotional support, was originally only receiving 1 visit per week. We saw Mrs A 3-4 times a week. Results came back clear, we reviewed her support and she was happy to return to the medium band	1.5	Returned to Med Band	
3	Anywhere	13/09/10 - 25/10/10	Hip operation- was on a low band, wanted to be seen 2 times a week after the intial operation to bridge the gap between her family coming into see her. After the 6 weeks, she was feeling a lot more confident and wanted to return to the low band.	1	Returned to low Band	
4	Anywhere	22/09/10 - 03/11/10	Moved back into property after having a fire in the property. Mrs C had been in residential care whilst the property was refurbished and she needed some intense support to enable her to rebuild her life.	55	Prior to the fire we did not have the bands in place, so Mrs C moved into the medium, and after about 4 weeks it become apparent that she was incorrectly banded, due to the amount time required to Support (for example 2 person visit) so is now in the High band	
5	Anywhere	20/09/10 - 01/11/10	Mr E was suffering with depressions and had no care in place, no family near by and also suffers with agoraphobia. So he requested daily visits and had regular telephone calls for support. This change happened very quickly.	12	Mr E has returned to the high band, but he does still require a lot of support and a daily visit. However he has been supported to engage with health. He now has a GP and regular visits from the district nurse and has very recently engaged with the Hospital and awaiting op.	
6	Anywhere	04/10/10 - 15/11/10	Ms F was self harming and needed additional support due to threat of suicide	6	Ms F has moved to a high band now, so that receive regular support. She has been assessed by mental health team early October, but has not heard anything as yet and has a bad track record with the mental health team ie lack of trust of the service they offer. Is currently in hospital due to chest infection	
7	Anywhere	30/11/10 - 22/12/10	Mrs G was discharged from hospital diagnosed with a terminal illness and CHL were contacted by OT to ask for increased support	5.5	Mrs G went back into hospital 22/12/10, due to being diagnosed with Phenumonia and to receive end of life care	
			Knee Operation-was on a low band, wanted to be
